# Welcome to Caltrans!

**Caltrans**, or the **California Department of Transportation**, builds and maintains California's many highways, roads, and waterways... all with the same goal of making our highways better and safer for travel and to protect the environment.

**Clean CA** is a program to help beautiful our lovely California state. Our goal is to remind everyone that **we can** do our part to throw trash and recyclables away where they go.

Littering causes pollution and makes driving unsafe if it's on our roads!

**When you travel** and see our Caltrans highway maintenance workers in their orange safety gear repairing and cleaning up our roadways, please remember to be safe and watch out for our team members and don't be afraid to give them a friendly wave!

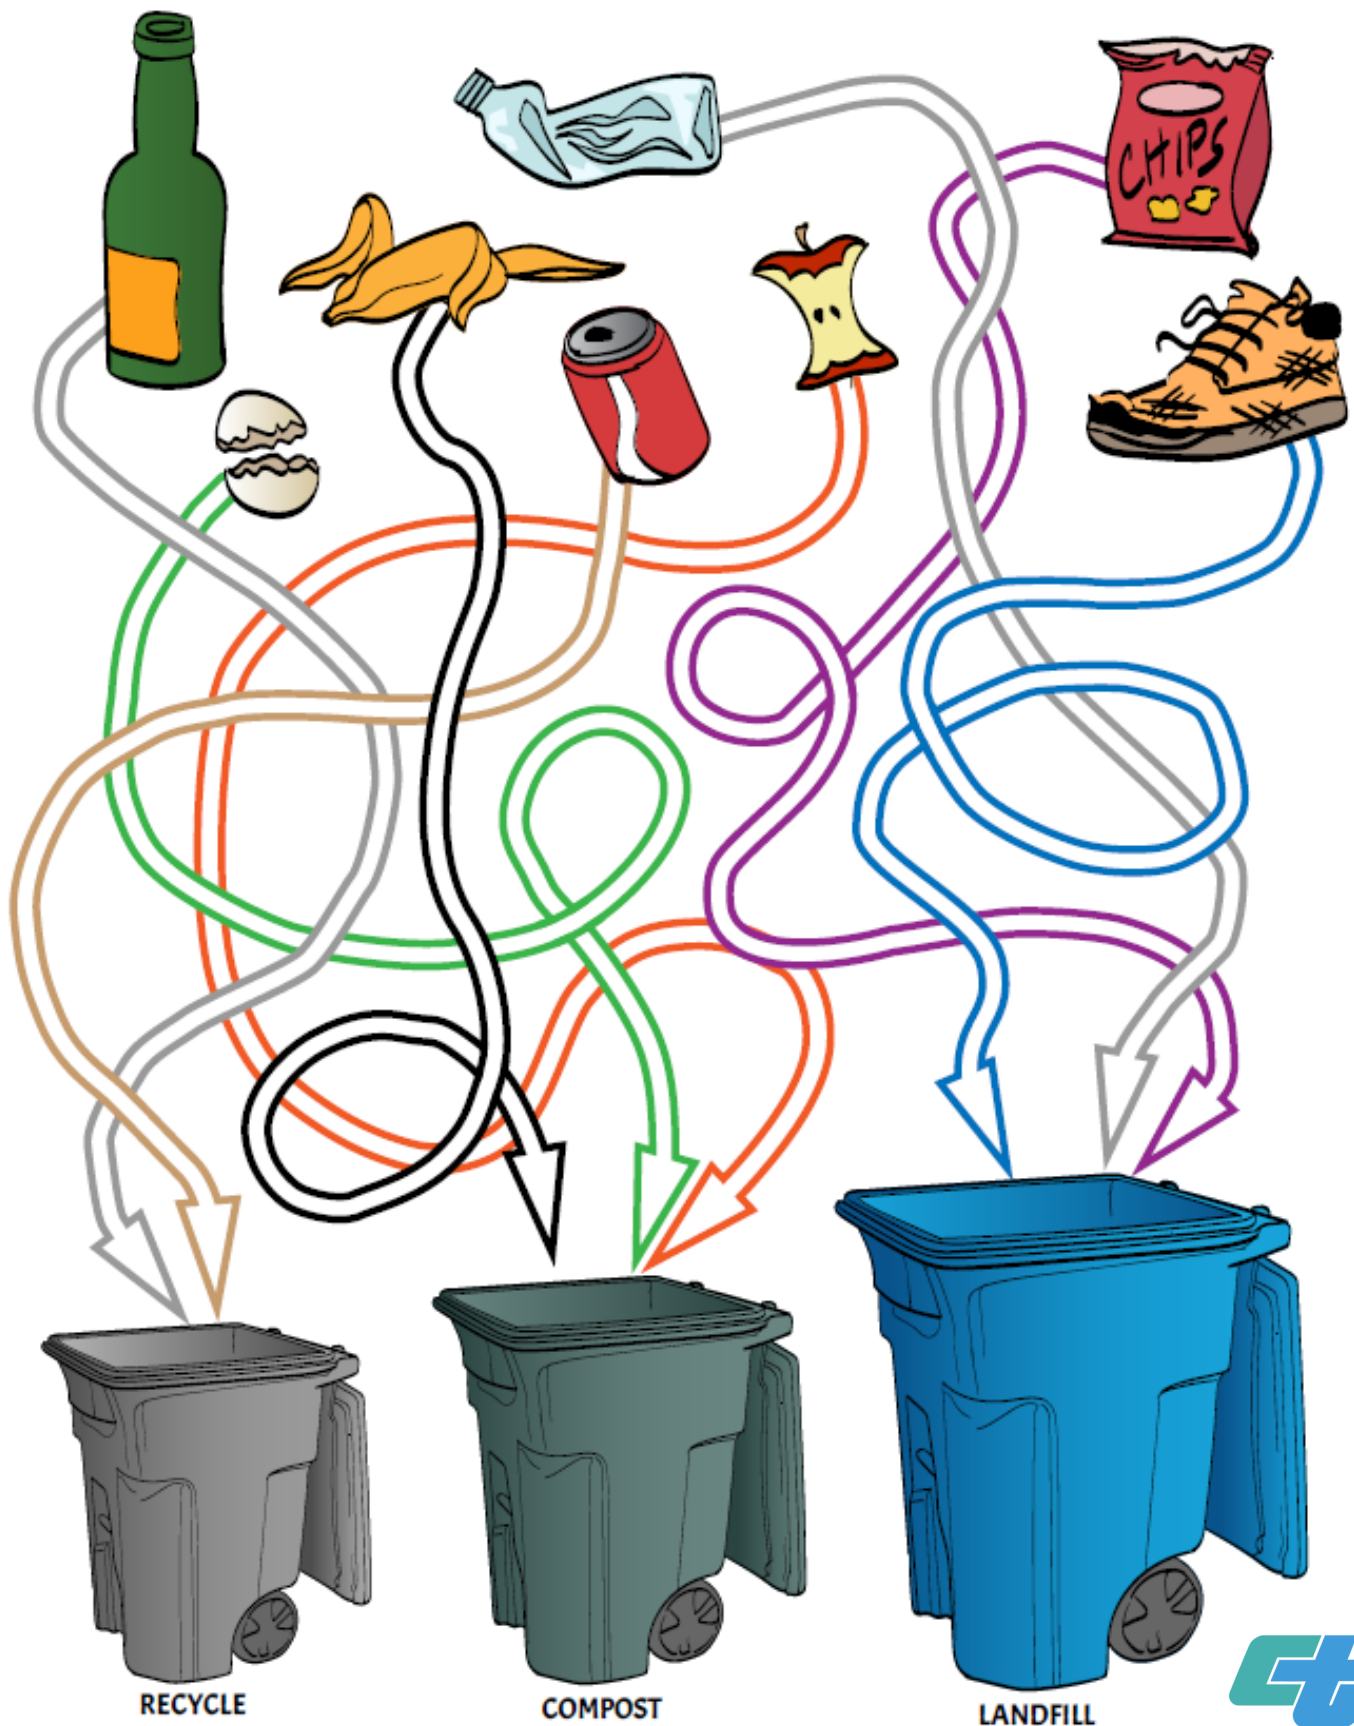

We want our California to be clean for our health, our animals, plants, water, water creatures, and for our traveling safety.

**MATCH THE COLORS FROM THE COVER
